## IS QUARANTINED ON WAY TO WEDDING

Plateau Man Nurses Friend and Has to Postpone Ceremony.

Plateau, Texas, Jan. 18.—That love overcomes all obstacles has been truly exemplified here in the case of Roy Kendrick, a young man holding an eight section claim about 15 miles north of Plateau. He had persuaded a fair daughter of Callahan county to share his solitude by becoming his bride, and went to Clyde, Texas. A few days prior to the nuptial day a young man friend was taken seriously ill and he shared in the vigils at his bedside. At the appointed hour, for the ceremony, while on his way to claim his bride, a cruel fate intervened in the form of an officer, who placed him under quarantine for 18 days, his friend having developed an unmistakable case of smallpox. The day of his release he was married to his faithful love, Miss Ellis, daughter of Dr. Ellis, of that place, and came on to the western home. He was in Plateau recently, purchasing lumber to erect a neat home on the site of his former bachelor camp.

## CLOVIS OFFERS PRIZES FOR DRY FARM BROOM CORN.

Farmers Organizing to Secure Seed in Large Quantities and to Get Better Market for Product.

Clovis, N. M., Jan. 18.—One of the greatest events in the life of Clovis was the meeting held at the chamber of commerce recently, in which 60 percent of the business men of the city and a number of the professional men took an active part. The question of encouraging a large acreage of broom corn among the farmers of the trade district of Clovis was gone over in detail, and it was decided that the chamber of commerce would offer attractive and numerous prizes to those making the best show of the product from dry farming lands this coming year, all prizes to be awarded after the regular fall carnival which is held in this city.

The indications are now that the farmers of this section of New Mexico will put out a large acreage of broom corn and other crops that have already proved a success for this climate and altitude. Organizations are being rapidly formed among the farmers of the county now for the purpose of securing seed in large quantities, and in the hope that by a big acreage of good produce they can secure a better market for what they grow.

Del Rio, Tex., Jan. 18.—Advises received here of more than ordinary interest tell of the sentence in the federal court at San Antonio, of Jose M. Rangel, recently convicted in the same court on the charge of violating the neutrality laws, and setting on foot a rebellion against the Mexican government in the United States. He was refused a new trial and sentenced to pay a nominal fine of \$1 and to serve 18 months at hard labor in the federal penitentiary at Leavenworth, Kan.

In passing sentence Judge Maxey said he took into consideration the five months spent in jail by the prisoner awaiting trial. The motion of the defendant for a new trial was based on the principle that the evidence adduced on the stand was insufficient to convict.
